## **DETAILED ACTION**

### ***Information Disclosure Statement***

The IDSes filed 3/3/04 and 5/27/05 have both been considered and placed of record. The initialed copies are attached herewith.

### ***Specification***

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Sink et al. (US 6,270,916). The reference discloses a battery discharge device for a battery having, *inter alia*, a mechanism including a spring-biased switch element 5, a passage to house the element 5, a tab 8 extends through the battery casing to prevent the element 5 from electrically contacting a pad 4. When a user removed the tab 8, the switch element 5 is allowed to fully extends into the passage and activate the complete discharge. See figure 1b and 2.

***Allowable Subject Matter***

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
